Education

state-certified computer science engineer –Artificial Intelligence 2022 – Present
4 th Year Student, Djilali Liabes University, Sidi Bel Abbès, Algeria

Scientific Baccalaureate 2022
Specialty: Experimental Sciences

Technical Skills

- **Programming:** Python, JavaScript (basic), MongoDB, SQ fundamentals
- **AI & Data:** Scikit-learn, PyTorch, ML Learning Paradigms
- **Frameworks & UI:** Tkinter, HTML, Node.js, Next.js (basic)
- **Tools:** Git, GitHub, Linux, VSC, Google Colab, Volatility, disk and memory analysis concepts

Projects

- **Machine Learning Models**
Implemented ML Paradigms (Supervised, unsupervised, RL), focusing on training, evaluation, and result analysis.
- **Invoice Automation Tool**
Automated multiple PDFs invoices tables extraction, prices updates and Excel export in one time.
- **E-commerce AI Description Generator**
Built a simple and powerful Python tool to automatically generate product descriptions for e-commerce websites.

Soft Skills

Problem-solving mindset, fast learner, strong curiosity, good organization, clear communication, ability to work independently and in teams.

Certifications

- C language Programming

Languages

- Arabic — Native
- English — Intermediate
- French — Intermediate
